

Children's Discovery Area

This map is not to scale.

Note:
 This map is not to scale. Booths that show a gap between them are not necessarily end booths. They are placed as close to the adjacent tree, light pole, electrical box or vendor booth as possible. Traffic is not directed between these booths. Booths 23E-25E have no power available. The interior of the food court is a common space shared by all food vendors. We reserve the right to move venues as needed.
